The old parties broken up, and old issues virtually dead, the vital question at present is Union or disunion. The Commonwealth is for the Union, baliaving it to be the greatest safeguard for our rights, as well as our most effective auxiliary in our efforts to obtain radresa for our wrongs. Its conductors do not regard dirunion as a remody for any of the wrongs of the South, but rather an aggravation. It wil contend for the equality of the States in the I'nlon, and for the absolute non-interference by Congress with the domestic affairs of the States and Territories.

We shall aim to make the Commonwealth an acceptable and appropriate fireside companion. It will contain selections from the choicast literature of the day, prose, poetry, &c.

Fever and Ague,

from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous minsm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excreting organs of the hody. The liver becomes torpid and fails to secrete not only this virus, but also the lule from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constituin the circulation, and produce violent constitu-tional disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our or-ganism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the liveryal experteries to force them to exist it infusion, concentrates the whole blood of the body in the internal exerctories to force them to east in ont. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the Feven follows, in which the blood leaves the central organs and rushes to the surface, as if in another elfort to expel the irritating poison through that other great excretory—the skin. In this also it fulls, and the system ahandons the attempt exhausted, and waits for the recovery of trength to repeat the hopeless effort another day. These are the fits or paroxysms of Feven and Act E. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, in We have labored to find, and have found, an

Ayer's Ague Cure,

which neutralizes this malarious poison in the bool, and stimulates the liver to ext el it from the bool, and stimulates the liver to ext el it from the bool, and stimulates the liver to ext el it from the bool, and stimulates the liver to ext el it from the book. A it should, so it does cure this atlicti is disorder with perfect certainty. And it does more, or reture do so what is of more service to those subject to this infection. If taken in so ason it expels it from the system as it is absorbed, and thus ke pathose who use it free from its attacks; keeps the system in health alth hugh exposed to the disea. Conse uently it not only cure, but protects from the great variety of affections which are induced by this mullomant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Neural is, Ilheumatism, Gout, Blandness, Toolasch, Farriche, Catarrh, Asthma, Palpitation, Famful Affections of the Spleen, Hysteris, Colic, Paraly is, and Painful Affections of the Stomach and Bowels, all of which, when arising from the is cause, with the found to assume more or less the intermittent type. This "AGUE Crae" removes the cause of these derangements, and cures the disea.

This it accomplishes by stimulating the excretories to expel the virus from the system: Indicate organs by degrees become habited to do this their office of their own accord. Hence arises what we term ecclimatation. Time may accomplish the same end, but often life is, not long enough, or is sacrifeed in the attempt, while this "AGUNCURE", does it at once, and with safety. We have great reason to believe this is a sailer as well as safer remedy for the whole class of diseases which are caused by the missmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.

1. Resolved by the General Assembly of the Com-monwealth of Kentucky, That Kentucky has ever cherished and adhered to the Federal Union and cherished and adhered to the Federal Union and she will cling to it now, in this time of its extremest peril, with unfaltering devotion. While at the beginning of the mad and wicked war which is being waged by the rehellions States for the destruction of the government she forchore to take part, in the hope that she might interpose her friendly offices in the interests of peace, she has, nevertheless, sternly repelled every movement which looked to a change of her political relations, and has never swerved from her full and fervid toyalty to the noblest and freest government in the world. And now, since her proffered ment in the world. And now, since her proffered mediation has been spurned and her soil invaded by the Confederate armies, she deems it fit that he should announce to the world that, standing firmly by her government, she will resist every effort to destroy it; and she calls upon her true and heroic sons to rally around the standard of their country, and put forth the whole energies of the Commonwealth, till the rebellion shall be overthrewn and the just supremacy of the National Government shall be restored and maintained

everywhere within its limits.

2. Resolved, That the existing civil war.force 2. Resolved, That the existing civil war, forced upon the National Government without cause by the disunionists, should not be waged upon the pert ef the government in auy "spirit of oppression, or for any purpose of conquest or subjugation, or purpose of overthrowing or interfering with the rights or established institutions of any of the States, free or slave, but to defend and maintain the supremacy of the ronstitution and to preserve the Union with all the dignity, equality, and rights of the several States unimpaired: and that as soon as these objects are accomplished, the war ought to cease."

ought to cease. 3. Ecolved, That in the adoption of the fore-going resolution by the National Congress, with unprecedental unanimity, at its late session, a rule of action was prescribed to the government from which it cannot depart without a disregard of the plighted faith of the National Legislature, which we would he slow to believe can be seriously entertained. Against any such departure we

ly entertained. Against any such departure we solemnly protest.

4. Resolved, That the purposes expressed in said resolution is the great end demanded, and that which inspires Kentucky with patriotic ardor to seek their achievement with all her loyal energies and means, in the confident hope of success, and belief that the country saved, in our triumply, to us and to posterity, will still he glorious in the freedom of its people, in the unity of its gorernment and the security of society, and worth infinitely more than it cost to save it.

5. Resolved. That we have learned with amazement that the authorities of the Coafederete States

neut that the authorities of the Coafederete State heve armed nogroes and Indians to wage war up on our Government and people, and utterly con-demn it, and that we would deplore and protest against our National Government following their example and arming slaves to be used as soldier to fight in the existing war, and we cannot be-lieve that the National Executive enterteins any such purpose.
6. Resolved, That slavery is a State institution

guaranteed by the Constitution of the United States, and we cannot agree that the Natione Sovernment, to which we are and intend to be oyal, shall undortake the emascipation of slaves

Drifting Apart.

The radical and anti-slavery element in Congress is fast arraying itself against the President and his policy. Mr. Lincoln, as we believe, is endeavoring to preserve the Constitution and the Union as transmitted to us by the fathers of the Government-by the patriots of the Revolution-while the Sumners, Trumbulls, Hales, Chandlera, Lovejoys, and still lesser lights, if any exist, are for making a grand stride over all laws, forms, constitutions, everything, ia order to earry out their theories, and establish their peculiar doctrines on the ruins. In this endeavor Fremont and Cameron are lending active aid-each with reference to the future Presidency. Already has Mr. Lincoln been compelled to put a curb-bit in the month of his Secretary of War, for which a storm of indignation is fast rising in the eamp of the Presidential conspirators soon to break about his devoted head with awful thunders. We predict that Mr. Liucoln's administration will soon be compelled to rely wholly upon the conservative sentiment of the country for its strength and support, and that strength and support will be given cheerfully and willingly All true lovers of their country will be found lending their aid in a patriotic endeavor to maintain and uphold the institutions of the country intact, as bequeathed to us by Washington and his glorious compatriots. Every days action in Congressevery day's report from the great centres of news-make the facts here asserted more and more apparent.

Capt. H. G. Twymnn.

Among those who have done good service for the State, we are pleased to meation the gentlemaa whose name heads this article.

DEATH OF A REBEL GENERAL. - A letter from Port Royal to the Albany Evening Journal, announces the death of Gen. Drayton, who had command of the rebel forces at that place. It is said that he was wounded in the fort, and died on the retreat. He was said to be a man of great wealth and large military experience. His brother. Captain Drayton, had charge of one of the Federal ships during the bombardmeat, and fired the last gun. He suspected that his brother held a high command on land, but had to be met and contended with everythat did not interfere with his duties to his

ATTENTION TAX PAYERS! THE attention of Tax payers of Franklin county is respectfully called to the following

TO THE SHERIFFS OF KENTICKY. The condition of the Treasury makes it neces sary, for the purpose of carrying on the Govern-ment, that the revenue should be paid into the Treasury as early as possible, and that payments should be made whenever an amount sufficient to mound be made whenever an amount smaders to ustify shall have been collected. I therefore nost earnestly call upon the sheriffs of the State to use every exertion in their power to collect and pay in the revenue of their respective counties at he earliest possible day, that the credit of the State may not suffer for the want of means to pay off just claims against it. It would be a source of regret to me to take judgment against any of the sheriffs; but my duty will require me to enforce the law against any sheriff who fails to pay in the revenue by the time fixed by law.
